Swiss GriP Non-Slip installed in enamel steel bathtubs at the Westin Hamburg

Swiss GriP Non-Slip - Das Original

We are the global leader in certified non-slip coatings, drawing on more than 25 years of experience in development and manufacturing. Our durable coatings prevent slips, trips and falls in more than 50 countries and our references include high profile hotels, hospitals, aged care facilities as well as public buildings and residential properties.

With our Swiss-made coatings we commit to the highest possible standards of quality and slip-resistance. Because Swiss GriP coatings are certified in every national standard for slip-resistance, we are uniquely placed to meet the needs of customers locally and globally.

We know coatings, we know slip-resistance

The Swiss GriP range of coatings combine durability and performance with the best slip-resistance in wet and dry conditions.

Design

Our transparent coatings allow you to focus on design without compromising on safety. With excellent adhesion to a wide range of surfaces, Swiss GriP is the right solution for every situation. Moreover, our tinted coatings can be used for the demarcation of areas while also providing slip-resistance.

Certified world-wide

Swiss GriP coatings are certified in every leading slip-resistance standard. We provide test reports from independent institutions and experts like CSIRO, TÜV, Empa, and Satra. Therefore, we promise the best-slip resistance in any situation. No other solution is backed by science like Swiss GriP.

AS 4586-2013

Swiss GriP coating are certified by CSIRO Australia in the Australian standard for slip resistance (AS 4586-2013) in both wet and dry conditions with slip rating of P3 up to P5, R11 and R12.

Only the best is good enough when it comes to safety

Eliminating slips and falls in every situation

The SWISS GriP product range can be used in a wide range of applications. It will meet all the protective and decorative standards while providing excellent durability. Our coatings are used in healthcare, hospitality, as well as residential and industrial applications.

Safety - Prevent slips, trips and falls on any surface

Non-etching - Durable, protective non-slip coating

Certified - Meeting and exceeding safety standards

Design - Transparent, UV-Stable coatings. Non-yellowing.

Swiss GriP Non-Slip Case Studies

Non-slip safety solutions are constantly in demand — especially where durable, certified solutions are required. Our premium quality non-slip coatings prevent slips, trips, and falls all around the world. In impressive hotels, public buildings, private residences and luxury yachts. Whatever your requirements, you will find what you are looking for in our certified, premium-quality product range.

Sydney Star Casino, Pool Area

The Star Grand Hotel is a world of luxe with opulent furnishings, contemporary fine art and a resort-style indoor/outdoor pool.

Guests enjoy the pool without the risk of slipping thanks to the transparent Swiss GriP Non-Slip coating, which is applied to the ceramic tiles around the pool areas.

Olivet Aged Care, Melbourne

For over 50 years, Olivet Aged Care provides aged care services, residential aged care & aged day care facilities in Victoria. With outstanding attention to safety in all aspects of care, Olivet chose Swiss GriP Non-Slip to over shower mats. Our aesthetic and hygienic non-slip solution was applied to acrylic shower bases.
